

Scott Marshall

Front-End Developer

SUMMARY

Experienced Front-End Developer with over 10 years of experience in Shopify and modern web development. I specialize in developing custom Shopify themes and delivering intuitive front-end solutions using advanced technologies and best practices.

EXPERIENCE

Intermediate Developer

Pixel Union | Jul. 2019 – Oct. 2024

- Customized Pixel Union Shopify themes by developing new features, templates, and sections that adhered to Shopify standards, while optimizing performance, accessibility, and code quality.
- Regularly updated internal packages, libraries, and shared components, enhancing code consistency, reducing technical debt, and supporting faster development cycles across the team.
- Diagnosed and resolved complex technical challenges through advanced debugging and troubleshooting, conducted detailed code reviews, and collaborated with cross-functional teams to deliver high-quality, successful project outcomes.

Intermediate Web Developer / Technical Support Supervisor

Out of the Sandbox | Mar. 2016 – Jul. 2019

- Customized Out of the Sandbox Shopify themes by developing new features, templates, and sections that adhered to Shopify standards, while optimizing performance, accessibility, and code quality.
- Supervised daily technical support operations, overseeing issue resolution, ticket escalation, and staff training, resulting in improved resolution rate and faster response times.
- Diagnosed and resolved complex technical challenges through advanced debugging and troubleshooting, conducted detailed code reviews, and collaborated with cross-functional teams to deliver high-quality, successful project outcomes.

EDUCATION

Interactive Multimedia Development

Algonquin College | Jun. 2012 – Jun. 2014

- Ontario College Diploma in digital media, focused on web and graphic design, programming, and motion graphics.

SKILLS
